The Beahrs Environmental Leadership Program (ELP) of the College of Natural Resources at the University of California, Berkeley provides state-of-the-art training in environmental and natural resource science, policy, and leadership to strengthen the capacities of global environmental practitioners. Participants will benefit from a unique opportunity to interact with Berkeley faculty as well as their global peers to access new information and tools, share practical experiences, and develop collaborative leadership skills. The Beahrs ELP has graduated 575 environmental leaders from over 110 countries.

Benefits

- UC Berkeley certificate in Sustainable Environmental Management
- Enhanced capacity to develop solutions that balance environmental, economic, and social equity objectives.
- Strengthened skills for communicating ideas, facilitating multi-stakeholder processes, and leading social change.
- Lifetime membership in the world-wide Berkeley ELP Alumni Network
- Eligibility to apply for the Buck Kingman Initiative to receive funding for collaborative projects with UC Berkeley faculty.

The Beahrs ELP

Testimonials

“Beahrs ELP attracts a remarkable group of passionate leaders to the program. Their personal stories of overcoming extraordinary challenges to make a difference for their communities and our environment are truly inspiring. My wish is that more people have the opportunity to hear their stories so they too are motivated to make real positive change in the world.”
-David Riemer, Executive Fellow at the Haas School of Business, ELP Instructor

“What I have learned from the ELP can’t be quantified. I made friends that I never thought I would meet and not only that, I am a better leader and my approach to situations and body language has changed all thanks to Susan Carpenter’s class on ‘Leadership for Collaborative Change.’ The most memorable workshop for me was the technology fair’s ‘Biologically Inspired Innovation for Oil Spill Recovery’ lecture by Thomas Azwell. That particular class was inspiring and what I took away is that as long as you are innovative there is nothing you can’t do.”
-Titilope Fadipe, Senior Chemical Engineer and Head of Carbon Credit Desk, Lagos State Ministry of the Environment, Nigeria (ELP 2013)
